Welker Solutions Through Vinson Process Controls

Filtering, Conditioning, & Pressure Regulation

Filter Dryers + Filter
F Series

Protect instrumentation and analyzers by removing moisture, liquids, and contaminants from process streams.

CleanFlow Systems
CleanFlow Series

Deliver clean, dry instrument gas to support reliable pneumatic and control equipment operation.

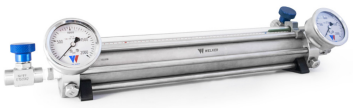
Probe Regulators
IR Series

Provide pressure regulation at the source for accurate sampling and analyzer applications.

Sampling Solutions

Sample Probes
SP Series

Extract representative samples directly from the process stream for analysis and monitoring.



Sample Cylinders
CP Series

Safely collect, transport, and store process samples while maintaining sample integrity.

Sample Conditioning & Analyzer Protection
LE, ALS, SCHS Series

Condition sample gas and help protect analyzers from liquid carryover and contamination.

Applications

- Natural Gas Sampling
- Analyzer Protection
- Custody Transfer Measurement
- Instrument Gas Conditioning
- Fuel Gas Treatment
- Pipeline Monitoring
- Calibration Gas Handling
- Sample Transport & Storage
