

Snap-In Assembly: Wired for Success

Our new Snap-In Assembly increases efficiency, reduces costs, and encourages safer operations.

[WATCH VIDEO](#)

“Installing and expanding control panels is a major challenge for our Field Technicians and Electricians due to the amount of time required on-site, the many small parts involved that are easy to lose, and a frequent poor understanding or execution of wiring best practices.” **–Permian Basin I&E Contractor**

Benefits

Increased Efficiency

Reduce Field Installation time by 15X or more!

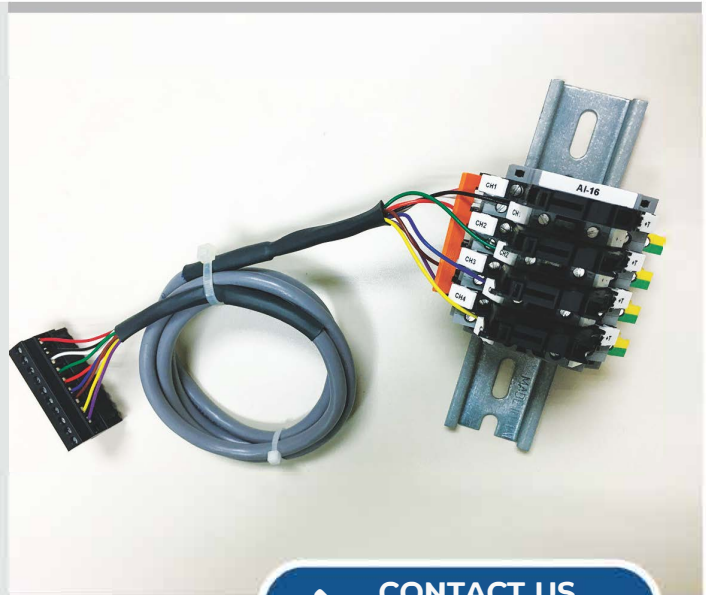

Reduced Costs

Ensure on-time project completion by avoiding delays and overspending.

Safer Operations

Ensure your wiring installation is simple to troubleshoot and follows industry best practices with our innovative solution, including full wiring schematics.
