

# Control Valve University

## Control Valve Application Sizing & Selection with an overview of the FIELDVUE™ Digital Valve Controller

There are many choices when it comes to controlling valve styles, which fits best in the application? Come to Vinson to learn more.

### Course Overview:

The Course will cover basic valve types and how to apply them in liquid and gas applications. Control valves see severe service conditions like noise, cavitation, and outgassing. We will cover how to size and select the right valve for these applications using a quick calculator and Fisher™ Specification Manager software. Break out sessions will include overviews and troubleshooting tips on Fisher's™ FIELDVUE™ DVC 6200 Digital Valve controller, electric actuation environmental solutions, and pressure relief and vessel protection.

This one-day course is suitable for engineers, technicians and reliability professionals. Hurry and register today!

**Date:** Thursday, July 27th, 2023  
**Duration:** 1-day training only  
**Time:** 8:30 am CST- 5:00 pm CST (approximate end time)  
**Cost:** \$50.00 (Pay by purchase order or credit card)
