MIDSTREAM GAS PROCESSING

Seminar & Technology Day

Gas processing facilities operate under constant pressure to maintain uptime, protect personnel, and ensure product quality—all while managing aging assets, workforce constraints, and increasing cyber risk. This event is designed specifically for **gas processing professionals** focused on strengthening plant performance and safety.

Join industry peers to explore practical approaches to:

- Improving **plant reliability** across compressors, cryogenic units, dehydration, and treating systems.
- Implementing effective **alarm management** to reduce nuisance alarms and operator overload.
- Protecting critical control systems with OT-focused **cybersecurity** strategies.
- Advancing **maintenance execution and safety performance** in high-hazard processing environments.

Preliminary Agenda

08:00 a.m. - 08:30 a.m. . . . Morning Networking Breakfast
08:30 a.m. - 12:00 p.m. . . . **Opening Panel Discussion & Sessions**
12:00 p.m. - 01:15 p.m. . . . Technology Exhibits Intro & Lunch
01:15 p.m. - 03:30 p.m. . . . **Afternoon Sessions**
03:30 p.m. - 05:00 p.m. . . . Networking Reception
08:00 a.m. - 05:00 p.m. . . . Technology Exhibits
